

Light Bulb Changer Instructions

1. Turn off all power to the bulb.
2. Choose the attachment to use, based on the size and type of bulb.
3. Insert the pole through the safety cover.
4. With the safety cover in place, snap in the attachment.
5. Slowly unscrew the bulb and replace.
6. If you have chosen the suction cup attachment, use the included string to release the suction from the new/replaced bulb.
